

## Industry Specific Solutions

*Self Serve fuelling anywhere*

Developed by InfoNet, Fuel Commander is a fully integrated PC based remote managed solution for 24/7 self-serve fuelling. With more than 15 years of experience delivering solutions to gas stations, cardlocks, airports and marinas, or anywhere else where fuel is sold, we understand the needs of our clients and the desires of their customers:

- ▶ Stand alone, fully automated
- ▶ Remotely managed unattended fuel station
- ▶ Accepts all major credit, debit, fleet and private label cards
- ▶ Operates labour free
- ▶ Safe and secure

*Fuel Commander* offers industry leading speed and simplicity, while meeting the requirements of petroleum retailers and wholesalers for system reliability and management:

- ▶ Operates with all major pumps
- ▶ Powerful and secure remote management
- ▶ High reliability with industry standard hardware
- ▶ Operates in extreme weather conditions
- ▶ Cost savings and immediate ROI

InfoNet has a history of software & hardware innovation with industry experience to deliver a solution that supports your requirements today and is flexible enough to support your business needs in the future.

- ▶ Self diagnostic capability
- ▶ Elegant and rugged design
- ▶ PCI compliant
- ▶ CSA certified and is both Industry Canada and FCC compliant
- ▶ Pay at the Pump without the high capital cost
- ▶ Multiple acquirer certified – credit & debit
